## Frontend Developer

Lagos State, Nigeria. | +(234) 9126978009, +(234) 8160765447 | [mchladelola@gmail.com](mailto:mchladelola@gmail.com)

---

### SKILLS

#### Frontend Technologies.

React.js

Next.js

HTML5

JavaScript/TypeScript

jQuery

#### Styling Libraries

Chakra UI

Tailwind

Material UI

Bootstrap

CSS3

#### Version Control

Git and GitHub

#### Others

SQL

### EXPERIENCE

#### Frontend Developer

(May 2023 – Present)

##### Conceptdelapix – CDLP Hub

- Proficiently developed and implemented a sophisticated multiple-parameter search logic to create a seamless and efficient filtering mechanism on transaction history based on various attributes such as date, transaction status, amount, category and customer details.
- Developed a web-based application for bulk purchase and retailing of CUG airtime and data.
- Utilized chart tools to perform statistical analysis of user transactions and presented them graphically, aiding the visualization of consumer and product activity. This contributed to a 30% increase in client usage within a span of 2 months.
- Developed and launched web-based apps using cutting-edge web technologies and styling libraries, ensuring seamless cross-browser compatibility and delivering superior user experience. This resulted in a 45% boost in user engagement and 20% increase in conversion rates.
- Configured server-side scripting to bypass Cross-Origin Request for local app testing on servers.
- Revamped and deployed new features to enhance user accessibility and interaction across the application by 60%.
- Implemented role-based page rendering and integrated payment gateways for online payments.
- Implemented robust validation procedures to ensure valid user input and enhance client-side detail protection.
- Actively participated in code reviews and provided constructive feedback to enhance overall development practices.

#### Frontend Developer

(September 2022 – June 2023)

##### Toniceli

- Developed Learning Management System enabling subscribers to take software development and management-related courses offered by PEBC.
- Created pixel-perfect and responsive web pages using modern web technologies.
- Collaborated closely with designers and backend developers to implement and enhance website features and functionalities.
- Constructed web development courses and provided instructions to students in HTML, CSS, JavaScript, and React.js, fostering their skills and knowledge.

#### Frontend Developer

(June 2022 – August 2022)

##### Zuri Training

- Led a multidisciplinary team, consisting of developers, designers, and content creators to efficiently complete tasks within specified timelines.

- Developed a debt monitoring app for schools, incorporating in-app messaging, financial credibility history, and locality segmentation as its major features.
- Created and managed an Admin dashboard to streamline administrative tasks and improve operational efficiency.
- Collaborated with product designers and backend developers to ensure seamless integration and functionality.
- Gained hands-on experience in working within a professional development team and successfully delivering results.

## PROJECTS

- **Just Lunch** - A food ordering app for a restaurant to allow the customer place orders and track their delivery online.
- **ShopIt** - An e-commerce web application with integrated payment gateway
- **IDashU** - A web application that sensitizes the public on the need to help the needy and provides a donation interface.
- **Rent Up** - An online platform for property rental listings, enabling users to find and rent properties easily
- **Trippy** - A travel planning application that provides users with destinations, attractions, and itineraries recommendations.
- **STUDEBT** - A school management app for tracking students' debt, helping users stay organized and informed about their financial obligations.
